# DevOps Assessment – Continuous Integration with GitHub Actions

Repo link - <https://github.com/DebbieAUG/github-skills-challenge.git>

Pull request link - <https://github.com/priyansh-singh-1/github-skills-challenge/pull/1>

The screenshot displays a GitHub Pull Request (PR) interface. At the top, a comment from the `github-actions` bot, posted 6 minutes ago, shows a "Coverage report". The report indicates "Coverage 58%" (in a red box) and "PR Coverage 100%" (in a green box). Below this, a message states: "This PR does not seem to contain any modification to coverable code." with a sad face emoji. The commit history below shows three entries: 1. A commit by `priyansh-singh-1` adding 2 commits 3 minutes ago. 2. A commit by `priyansh-singh-1` with the title `fixed` (commit hash `5948b66`). 3. A commit by `priyansh-singh-1` with the title `Set coverage gate to current pass threshold` (commit hash `96e86e6`), which is marked as successful with a green checkmark. At the bottom, a message indicates that `priyansh-singh-1` merged commit `ee622cb` into `main` "now", with "4 checks passed". Buttons for "View details" and "Revert" are visible on the right.
